

Scholarship opportunities for Magellan MBA at GISMA Business School

Dear BCCG members,

GISMA Business School prides itself on a successful combination of theory and practice, which ensures that those who want to advance and enhance their careers can benefit from high-quality business studies that address the ever-changing realities of the global marketplace.

We are proud to announce our new MBA programme “**The Magellan MBA**” at GISMA Business School in Hannover in cooperation with Porto Business School (PBS). Porto Business School (AMBA and EPAS accredited) is one of the Europe’s top Business Schools, ranked 62nd by the Financial Times in 2015.

The programme is starting from **October 2016** and we only have a few places left reserved for potential students who are already in Germany. In addition, we are offering **full scholarships**, for students with excellent professional and academic backgrounds. In return, we would be very happy to win your company for potential internships, consulting projects or guest talks for our students. For those of you interested in applying for these scholarships, please get in touch with us as soon as possible.

The Magellan MBA will be offered full-time and will give students the opportunity to also attend an “international week” in London. This will help students understand more business concepts, cultures and ideologies. The Magellan MBA is a 14 months program with 10 months in-class lectures, full-time in Hanover, and for the last 4 months, the students can choose between a consulting project, an internship or CoHITEC (Engineering-Entrepreneurship project)

The programme is designed for fast-tracking professionals that, regardless of their past academic background, seek to develop a career in business or management with a strong international perspective.
