Invitation and Programme Conference
**Alternative and Renewable Energies -
The Future for European Industry**

Thursday, 6th May 2010

**Grand Hotel Heiligendamm
18209 Heiligendamm**

British Chamber
of Commerce
in Germany

Dear BCCG Members and Guests,

You are cordially invited to the conference:

RENEWABLE AND ALTERNATIVE ENERGIES— FUTURE FOR EUROPEAN INDUSTRY

The Conference and Networking Meeting on 6th May 2010 of the British Chamber of Commerce in Germany, organised by our Regional Committees Regions Hamburg/Northern Germany and Berlin/Brandenburg offer ample opportunities to gain special inside knowledge about new market developments in the alternative energy sector.

Please find enclosed (reverse side) a registration form and additional information about the Conference. We would particularly like to draw your attention to the interesting conference programme that has been arranged for members, their partners and guests.

Renewable energy will play a major role after the Copenhagen dialogue and its disputed outcome. Europe has set ambitious goals — how will we reach the 20/20/20 targets reducing CO₂, increasing renewable energy and reducing primary energy use by 2020? Or will we even achieve higher goals?

With our speakers and panel, we will discuss the following topics:

Development of the Future Energy Mix;
Fossil Energy, its Resources and its Replacements
Mobility and its technology;
Finance and Public Financing of Renewable Energy Infrastructure;
Policy Framework and Support Schemes for Renewables:

- EU and National Goals for Renewables
- Support Schemes for Renewables in Europe
- Outlook: Competition of National Policies vs. Harmonized Policies

Widespread use of renewable energy will not be possible without energy storage. It is likely that fossil fuels will still be needed for some time, especially for transportation. Hydrogen may offer a solution, for both, transportation and storage.

CONFERENCE 6th May 2010

Speeches will be held with the following themes:

“Pathways towards a lower carbon energy future”
“Renewable energy and mobility—energy storage is key”

The conference is held at the Resort Grand Hotel Heiligendamm, the site at the G-8 summit meeting in 2007, on the Baltic sea, near Rostock and Lübeck.

Whether or not you are able to attend, other representatives of your company or its subsidiaries are also very welcome at the Conference. Please feel free to inform any colleagues who might be interested to attend, as they are also cordially invited.

Please complete one registration form on the back **for each participant** as soon as possible and return it no later than 28th April 2010. For additional invitations in PDF format, please see our website www.bccg.de.

We are looking forward to welcoming you in Heiligendamm.

Best regards,

Rainer Giersch, Chairman,
BCCG Region Hamburg, Northern Germany

Ilka Hartmann, Chairman
BCCG Region Berlin/Brandenburg

Walter Heyne, Dip. Ing., BCC Business Construction
Consult AG, Zürich / GIHH Rostock

Holger König, General Director,
Grand Hotel Heiligendamm

YOU WILL FIND THE PROGRAMME ALWAYS
UP TO DATE ON OUR WEBSITE www.bccg.de
